

Your Website

Your ePayslips Portal

## Your ePayslips and ePaysafe portal can now be customised to your business

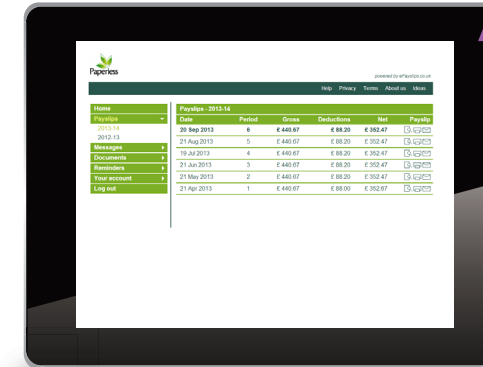

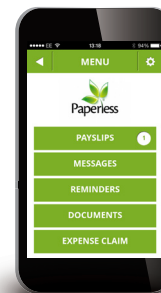

One of the most common reasons why employers are reluctant to switch from paper to ePayslips is that they are concerned about the resistance from employees to change.

Ability to access electronic payslips is becoming less of an issue with the high uptake of smart phones and tablets. The other feedback we had was that there was uncertainty because the payslips weren't branded as per their employer.

So we've looked at this problem and our solution is to provide a fully customised ePayslip service as part of our ePayslip package.

Your companies branding can now be brought onto your ePaysafe portal and also the actual ePayslips your employees receive.

- ✓ **Improve employee engagement and take-up**
- ✓ **Android and iPhone apps make ePayslips available to mobile and tablet devices**
- ✓ **No additional work for you**

Your Employees ePayslips

Employees can log in via PC, tablet or smart phone via our iPhone or Android App
